

January 31, 1955

Dr. John H. Paul,  
Section of Preventive Medicine,  
Yale University School of Medicine,  
New Haven, Connecticut.

Dear Doctor Paul:

I take it from your letter of January 27 to Colonel Rapalski that Doctor Sabin's dengue vaccine will be ready for trial in volunteers in the next month or so. This is just to let you know that Mr. Joseph Corboy, the new superintendent of Great Meadow Correctional Institution, Constock, has approved the tentative arrangements that were made before his appointment. Recruitment of volunteers can begin when you are ready. In discussions so far with Mr. Corboy and Mr. Leonard, the approximate number of volunteers mentioned is 100.

Best regards,

Sincerely yours,

IG:BJ
