Dear Doctor Sabin,

I am enclosing here a Programme for our
II. Congress which will be held between 22 to 24
September at Budapest. According to your permission,
I am giving a presentation of your lecture in
Hungarian.

Unfortunately, we have a rather bad polio
epidemic again this year. It is decided that live
polio vaccination will be started in some section
of our Country pretty soon.

With good wishes and personal regards

Yours sincerely

G. Ivánovics
