18th May, 64.

Dear Dr. Sabin,

I arrived in Kansas City, last night. I hope you received my last letter mentioning the details about my itinerary. I would be in Kansas till 22nd, and would be in Houston Texas, on 28-30 May. I hope you have written to Dr. Ramon Alvarez about my arrival in Mexico.

I have one sad news. I got a letter from Dr. Lewis that the European agency of the WHO has not been able to arrange my programme with Wellcome foundation and instead they are now approaching the Yugoslavian authorities for the Production training. I feel I am going to have tremendous language difficulties there. I have requested Dr. Payne to look into the matter and he has promised me that he will write to Dr. Gott of Wellcome. I am sure you must be having a good say in the matter. May I request you to use your good offices with Wellcome to get me accepted there. Dr. Payne is also writing to Dr. Lewis.

I shall highly appreciate this help.

With personal regards,

Sincerely yours
Kanu Dave
