Dr. Helena Libikova
Institute of Virology
Czechoslovak Academy of Sciences
Mlynska dolina
Bratislava 9, Czechoslovakia

Dear Dr. Libikova:

This is to thank you for the very fine volume entitled: "Biology of Viruses of the Tick-borne Encephalitis Complex" that I just received. It is a fine collection of papers and you did a remarkably good job of editing. The accompanying photographs as well as the contents of the book made me regret all the more that I was unable to be present at this interesting conference.

With best wishes for continued success in your work and with kindest regards to Dr. Blaskovic and yourself, I am,

Sincerely,

Albert B. Sabin, M. D.
