

Oct. 24, 1958

Dr. C. S. Swaminathan  
Haffkine Institute  
Parel  
Bombay 12, India

Dear Dr. Swaminathan:

Your note dated October 10, 1958 was received on October 22nd from Houston, Texas. I deeply regret that the pressure of activities in my laboratory will prevent me from attending the Diamond Jubilee celebration of the Haffkine Institute. I had great hopes that I might be able to come. I am still looking forward to a leisurely visit to India in the not too distant future.

The reprints that you requested are being sent to you under separate cover.

With best wishes and kindest regards.

Sincerely yours,

Albert B. Sabin, M. D.
