

PAUL M. BANCROFT, M. D.

909 SHARP BUILDING  
LINCOLN, NEBRASKA

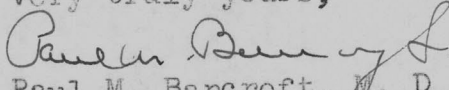

January 21, 1943.

Dr. Albert B. Sabin,  
Department of Pediatrics,  
College of Medicine,  
University of Cincinnati,  
Cincinnati, Ohio.

Dear Doctor Sabin:

I have under my care a child of two years, with microcephalus, internal hydrocephalus, retarded development, and possibly intra-cranial calcification, and spasticity. May I send you blood serum for the purpose of excluding toxoplasmosis as a diagnostic possibility? Would you want spinal fluid?

Very truly yours,

  
Paul M. Bancroft, M. D.
