Dear Joe:

I was very glad indeed to receive your note, but I am almost sorry that my impulse to send out those reprints made you feel that an explanation was necessary. I, of course, understand the situation very thoroughly and apparently I was prompted by the very selfish desire to bring to attention something which has only a remote bearing on the subject at hand.

As you have probably heard by this time, John Paul is back in this country and I think that ^{your} idea of getting together for a discussion on the subject of infectious hepatitis is a good one - especially in the near future.

With kindest regards,

Sincerely,

Albert B. Sabin,
Major, M.C.
