Rome, 1 October 1990

Dear Dr. Sabin,

Thank you very much for accepting our invitation to become a member of the Editorial Board of the European Journal of Epidemiology. We consider it a great honor to be able to include your name in this board.

I am also glad to hear that your manuscript on polio is almost ready. The length is not important. The milestone contributions that you have made to the world of medicine and humanity in general during your very prolific career fully entitle you to all the space you desire, and I'm sure that our readers will consider themselves extremely fortunate to hear your views on this important problem. It is my sincere hope that the coming years will be peaceful and productive ones for you, and that we will have many more opportunities to publish your work. Thank you once again.

My very best wishes.

Sincerely,

per
