Dr Albert B. SABIN
The Children's Research Foundation
Elland Avenue and Bethesda
CINCINNATI 29 OHIO

Dear Dr Sabin,

My father who has undergone an operation at hospital has asked me to thank you very much for your letter and to tell you that he has forwarded the queries you submitted in your letter dated the 27 th September, to Dr Pongratz in whom he has full confidence and who was his closest collaborator in the elaboration of the work concerning :
"RAPID SLIDE PRECIPITIN MICROREACTION OF POLIOMYELITIS ANTIGENS AND ANTISERA IN AGAR".

Should you need further information or details would you be kind enough to send your letter to me at the above address and according to my father's health he will either answer it himself or forward it to Dr Pongratz.

Yours sincerely

Etienne Grasset.
