Reprints sent

Dr. G. Santopadre
Istituto D'Igiene E Microbiologia
Universita Di Pisa
Via S. Zeno 15
Pisa, Italy

Dear Dr. Santopadre:

I regret the long delay in replying to your letter of October 1st but it came at a time when I was away from the laboratory a great deal.

Under separate cover I am sending you a collection of reprints dealing with neurotropic viruses. I regret that most of my reprints have been exhausted but I will send you whatever may be available.

Sincerely yours,

Albert B. Sabin, M. D.
