Dr. Albert Sabin
Medical University of South Carolina
80 Barre Street
Charleston, S. C. 29401

Dear Al:

We are overjoyed that you will give us your reflections for one of the Coronary Club pamphlets. We are getting quite a distinguished gallery.

Did you see that Dr. Nolan, the surgeon from Minnesota, also had a myocardial infarction six months ago and has a book out on it already, as reported in Time magazine?

Have a grand time in Brazil and if you find the time in Aspen to write the pamphlet, it will be deeply appreciated. You are a great guy.

My best,

As always,

Irvine H. Page, M. D.

P. S.: Please send a black and white glossy photo with the pamphlet.

I. H. P.
