Albert Sabin, M.D.  
Pediatrics Department  
Children's Hospital  
CAMPUS MAIL

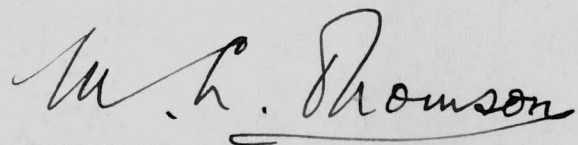

Dear Doctor Sabin:

This is just a note to let you know we are still at the developmental stage although progress has been satisfactory with the insufflation and X-raying of the monkeys.

If it is agreeable to you we will get only one monkey at a time at present and possibly keep him overnight so as to perfect technical details. I shall be away until June 12th but Drs. Thuss and Ziegler will carry on here.

With many thanks for your cooperation,

Yours sincerely,

M. L. Thomson, M.B., Ph.D.
