of Biomedicine
Medical University of South Carolina
80 Barre St.
Charleston, S. Car. 29401

Dear Al:

I guess it was too late in the political campaign for the sensible and informed approach to the swine flu question to replace the mad scramble we are in now.

I obtained a copy of your article before its publication in HORIZONS and presented it to the Cincinnati Academy of Medicine. They would have supported such a policy, but local public health department was already committed. My congratulations for trying.

I will call you while in Charleston from November 10-14. Perhaps we can meet and visit.

Sincerely,

Frank H. Mayfield, M. D.
