MEMORANDUM FOR: COMMANDING GENERAL
U.S. ARMY MEDICAL RESEARCH
AND DEVELOPMENT COMMAND

SUBJECT: New Research Contract Application submitted by Dr. Craig K. Wallace

1. The Armed Forces Epidemiological Board; by mail vote, recommends approval of the application for a research contract entitled "Gut Mucosal Effect of Bacterial Exotoxins" submitted by Dr. Craig K. Wallace, Assistant Professor of Medicine, Johns Hopkins University.
2. However it was the consensus that budget provisions for professional salaries were higher than usual and that these could be reduced to bring the budget to a reasonable figure, although conflicting opinions on this were expressed.
3. Nevertheless work in general was felt to be important with the following ratings given:

Military Applicability: 2.5
Scientific Merit: 2

FOR THE ARMED FORCES EPIDEMIOLOGICAL BOARD:
