CENTRAL PUBLIC HEALTH LABORATORY  
COLINDALE AVENUE  
LONDON, N.W.9

6th August, 1954

Dear Dr. Sabin,

Thank you very much for your letter of July 30th. It is most kind of you to let me mention in my letter to "Nature" the work which you have done on the interference phenomenon with MEF<sub>1</sub> virus.

It was extremely interesting to hear of your further experiments with the MV virus in monkey kidney cultures and I shall look forward to reading more about them. Indeed, I hope there may be a chance of hearing more about them, and about many other things, in a month's time in Rome.

Many thanks for letting me have a reprint of the J.E.M. paper.

With best wishes,

Yours sincerely,

  
G.L. Le Bouvier.

Dr. Albert B. Sabin,  
The Children's Hospital Research  
Foundation,  
Cincinnati, Ohio,  
U.S.A.
