My dear, dear Albert:

I am just going through the excellent contributions that you have made to the Journal of the Michigan State Medical Society, the American Journal of Tropical Medicine and Hygiene, Proceedings of the Society for Experimental Biology and Medicine and many, many other publications. You know, Dr. Sabin, I read with keen interest all of your contributions from the time that Dr. Lloyd Aycock told me about you. I have been enriched indeed, following your line of thinking and you will please continue mailing your articles to me.

With kindest regards,

Max J. Fox, M. D.
