Alhambra, California 91108

Dear Tommy,

Many thanks for your very kind letter and for the reprint of your historic account on poliomyelitis that was published in ORTHOPEDICS, July, 1981. I was also very glad to have the personal news about your present activities. I was 75 in August and intend to go on emeritus status July 1. A recent illness is cutting down on my travel activities but I hope very much that if by chance Heloisa and I should be traveling in California that we would have an opportunity for a reunion with you.

Enclosed herewith is a reprint of my latest publication on polio which might be of interest to you.

Best wishes and warmest personal regards.

Sincerely,

Albert B. Sabin, M.D.
