Item Record # i34424878
Call Number cl-g PA5610.V55 A15 189-
Title To hamartēma tēs mētros mou
Author Vīzyēnos, G. M. (Geōrgios M.)
Imprint

Date received 11/19/2015

Date Returned 4/24/2016

1 In-house Repair 1 Treatment
Performed In-house Repair Catarina Figueirinhas
Staff Type C-onservator, T-echician, S-tudent T
Time In-house Repair 980

2 In-house Repair 2 Storage & Handling
Performed In-house Repair 2 Catarina Figueirinhas
Staff Type C-onservator, T-echician, S-tudent T
Time In-house Repair 2 10

3 In-house Repair 3 Treatment
Performed In-house Repair 3 Ashleigh Schieszer
Staff Type C-onservator, T-echician, S-tudent C
Time In-house Repair 3 85

4 Type In-house Repair other Storage & Handling
Performed In-house Repair other Jessica Ebert
Staff Type C-onservator, T-echician, S-tudent T
Time In-house Repair other 75

Conservator's Note

This pamphlet was removed from an inherently acidic pamphlet binder by mechanically removing the corroded staples with a micro spatula and locally removing the cloth hinges with a poultice of methyl cellulose. The cover, already detached from the text block, was surface cleaned with an Absorbene smoke sponge. To remove the layer of adhesive still present on the cover and to reduce the adhesive stains, the cover was humidified, washed several times with cold and hot water, and sized with a 0.4% Methyl cellulose size. The paper cover was separated in two pieces. The cover was lined on the inside with a toned Uso mino kozo tissue and wheat starch paste. The losses on the cover were filled with paper pulp and inpainted with Schmincke watercolors and Prismacolor color pencils. A hinge of toned Tengujo tissue was placed along the breaking point on the right side of the upper cover with wheat starch paste. Overall, small tears along the text block were mended with a toned Tengujo tissue and wheat starch paste. The first and last page of the text block were hinged onto the text block with a toned Tengujo tissue and wheat starch paste. The spine of the text block was lined with Uso mino kozo tissue and wheat starch paste. The

original case was reattached to the text block with a Sekishu hollow tube and wheat starch paste applied to the spine. The inner hinges were reinforced with a toned Tengujo and wheat starch paste. The gatherings were opened with a page separating knife. The pamphlet was rehoused in a manuscript folder.
