article on polio

March 12, 1954

Dear Dr. Sabin,

I'm sorry to have been so stupid in misinterpreting your position on polio immunology and thank you for putting me straight. The offending lines have been deleted.

This completes the checking work on the book and I am sending it today to Simon & Schuster, who hope to have it ready for distribution sometime in June. I have asked them to send you an advance copy.

With thanks and best regards.

Sincerely,

Robert Coughlan
