May 4, 1948

Doctor Albert B. Sabin
The Children's Hospital
Research Foundation
Cincinnati 29, OHIO

Dear Doctor Sabin:

Replying to your letter of April 26 I must say I am sorry I did not realize that the requirements for Japanese Encephalitis Vaccine which you wanted were for the old mouse brain type vaccine. Consequently, I sent you the requirements which were drawn up for the chick embryo type vaccine.

Several minor changes have been made in the requirements as they were issued originally on November 8, 1944 but typewritten copies of these are enclosed as well.

Very truly yours,

W. G. Workman
Acting Chief
Biologics Control Laboratory
