Dr. Graber,

Dr. Sabin tried to reach you on Friday, March 27 prior to his departure for New York and Italy, however he was unsuccessful. He asked that I let you know that he did not have any special names to add to the invitation list for Dr. Wu's visit. He would like to plan some time to possibly take Dr. Wu to the Sabin home during his visit, but at the present time he is unsure of his schedule when he returns from Italy.

There is a slight possibility that Dr. Sabin's return from Italy may be delayed and that he will not return to Charleston on April 20 as previously scheduled. If this happens, I will be in touch with you. It may be necessary for him to return to the USA via England which could extend his trip several days.

I hope that this information is helpful to you in planning for Dr. Wu's visit.

Sincerely,

Teresa Rogers
