Corresp. File*

Dr. Albert B. Sabin,
University of Cincinnati,
Cincinnati, Ohio

Dear Dr. Sabin:

I'm most grateful for all the material you sent me despite your busy schedule. It arrived in ample time.

Enclosed are proofs of sections of my book dealing with your research, and I would very much appreciate your checking it for accuracy.

The date of publication was advanced, hence chapters were set in type as completed. But corrections can still be made from the proofs. Time is an element, however, since I am leaving early in April on a long trip, and want to complete the final editing before then.

Someone mentioned you are engaged in research on drugs to eliminate polio virus from the alimentary tract. If so, could you describe that research, for inclusion in the chapter dealing with drugs?

Again, my sincere thanks for your assistance, and my very best wishes,

Sincerely,

Alton Blakeslee

Alton L. Blakeslee
