Dear Sir

The students of the Escola Médica do Rio de Janeiro ( Medical School of Rio de Janeiro ) a newly founded faculty of the University Gama Filho, have the honor to announce that you have been chosen as patron of our Academic Center.

We feel very proud for the choice of your name, for we have knowledge of your high humanitarian spirit, being us the first Academic Center in Brazil to adopt it, which is known all over the world.

We are sure that thousands and thousands of children and adults will tell for centuries your victory over Poliomyelitis.

We want you to know how happy we shall be if you accept our invitation to visit us soon, so we can pay the honor you deserve.

Sincerely yours

---

Paulo Siloé de Carvalho ( president )
