August 28, 1990

Dear Doctor Lemon,

Enclosed herewith is an original and two copies of the paper entitled: "Correlation between Amount of Virus with Altered Nucleotide Sequence and the Standard Monkey Test for Acceptability of Oral Poliovirus Vaccine" by K. M. Chumakov et al that I would like to communicate to the Proc. Natl. Academy of Sciences.

I would be very grateful to you if you would kind enough to review <sup>it</sup> as one of the two referees that a member of the Academy is required to provide.

Sincerely

Albert B. Sabin
