Dear Doctor Sabin:

With another parcel from Japan Live Polio Vaccine Laboratories, Ltd., I am sure, you will soon receive an album, titled "Dr. Albert B. Sabin at Tokyo, 6-14 Nov., 1965", which I have made up by myself, selecting some of snaps taken at your visit and writing brief notes.

I hope it will reach you in time before X'mas. In case if you wish to have any copy for yourself or some other gentlemen, please write to me, referring number of pages at the upper corner of them.

Hoping your good health and great fortune in the coming year.

Very truly yours,

Jun-ichi Kaneko, M. D.,
