RE: PROPOSAL TITLED "TRICERACOPTER AMERICUS: A BICENTENNIAL PROJECT FOR THE UNIVERSITY OF CINCINNATI."

The attached proposal was reviewed by the Council on May 27, 1975 and turned down. A supplementary rationale for the project is being submitted in the hope of having Council reconsider the proposal as soon as possible so that funding from the Council, if secured, can be used to make a case for additional external matching grants to execute the total project. Time is of the essence; indeed, in making haste to meet Council's deadlines, the educational aspects of the initial proposal were not featured to the extent they should have been. Your urgent reconsideration of the proposal, in light of the supplementary rationale, would be most appreciated.
