Dr. A. B. Sabin
Children's Hospital Research Foundation
CINCINNATI
Ohio
U.S.A.

Dear Dr. Sabin,

I am planning to come to America in April of this year in order to visit laboratories studying poliomyelitis by tissue culture and to meet people who are interested in the problem of producing a vaccine against this disease. In this laboratory we have recently begun to work on such a vaccine, using tissue culture. I understand that Dr. F. O. McCallum has already told you of my visit and that you have been kind enough to invite me to your laboratory. I should like very much to avail myself of this opportunity. I do not know how long it will be convenient for you to have me in your laboratory, but if you were agreeable I could spend one or two days. I shall have to draw up a programme for my trip to America and I would be glad if you would let me know the dates on which a visit to your laboratory would be convenient for you.

I am looking forward to hearing from you.

Yours sincerely,

(D.G. ff. Edward)
