Dr. Albert B. Sabin  
The Children's Hospital  
Elland Avenue and Bethesda  
Cincinnati, Ohio

Dear Doctor Sabin:

I wish to carry on some tests for toxoplasmic neutralizing antibodies. Can you send me a strain of toxoplasma suitable for this purpose? If you can send me this material, and if you think it advisable because of the hot weather, I would be glad to have you send it air mail or air express collect. If it is not convenient for you to send me this material, can you recommend another possible source?

Sincerely yours,

F. R. Heilman, M. D.
