Re: South Africa - Trade Mark

Dear Dr. Sabin:

I am enclosing herewith copies of a letter and a patent application from our South African associates. The patent application indicates that your West Germany licensee has filed for a patent in South Africa for a vaccine utilizing the Sabin strain.

It has been suggested that the patent application is not concerned with the manufacture of the vaccine but, instead, with the admixture of the strain with another substance which facilitates the administration of the vaccine. I have heard about the Melnik process.

Please let me have your reaction to the enclosure.

With all good wishes.

Sincerely,

Arthur D. Condon
