Albert B. Sabin, M.D.
The Children's Hospital
Research Foundation
Elland Ave & Bethesda
Cincinnati 29, Ohio

Dear Doctor Sabin:

In our original letter to you, we asked that your manuscript be forwarded to this office not later than April 1. This note is to remind you that this time is fast approaching.

Our request that these manuscripts be made available to us is due to the **fact** that papers must be translated into the three official languages of the Conference; mimeographed; and forwarded to other members of the panel if the other discussants are to have the advantage of knowing the context of your speech in order to prepare their own discussions.

Thank you for your cooperation.

Sincerely yours,

Hart E. Van Riper

General Chairman
