TO : Special Consultants and Other Interested Personnel

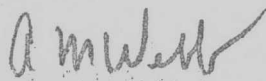

FROM : Dr. Alfred M. Webb, Virus Reagents Program, National Institute of
Allergy and Infectious Diseases

SUBJECT: Erratum in the "Notes for Checklist for Tentative Specifications
of Arbo-Virus Reagents"

To date, only one error in the "Notes for Checklist for Tentative
Specifications of Arbo-Virus Reagents" (revision of March 8, 1962)
has been brought to my attention, viz:

Page 4 Paragraph (3)

Read ".....to a concentration of 4×10^9 organisms per
0.15 ml (2.6×10^{10} per ml)" instead of "..... 4×10^9
organisms per ml."

Alfred M. Webb, Ph. D.
